Josh Kalis
31.375 x 7.56

Scott Conklin
31.375 x 7.56

■ A.W. Pro Model EXP. Decks

■ EXP Construction pro models are pressed in the LOK. concave with Ultra-lite thin plys. The LOK. concave features steeper nose and tail kicks and a more defined concave throughout the mid section. This concave combined with the A.W. Ultra-lite Construction utilizes the thinner veneers to create an extremely light, stiff deck that won't go soft after a couple weeks of skating. EXP Construction decks available in day-glow green, yellow and blue phosphorescent-charged finishes, which create a slicker surface.

■ A.W. Blue Steel Pro Series

■ **Blue Steel Pro Series** – Decks painted with metallic silver ink over the entire deck surface, top and bottom. They are the only ones of their kind out there. Maintains the LOK. Concave with steeper nose/tail kicks and A.W. Ultra-lite Construction with thinner veneers for a lighter, stiffer deck that keeps its pop.

***John Drake**

(31.68 x 7.75)

■ A.W. White Wash Pro Series

■ **White Wash Pro Series** –
Decks painted high gloss,
alpine white all over the entire
deck surface, top and bottom.
Complete paint coverage
ensures a slicker, stiffer deck
than traditional stained boards.
